

Keyboard Controller

This controller features a speed sensitive joystick. It will allow you to pan, tilt, zoom the camera, auto pan the camera, set up and select presets, control the camera settings and set up guard tours. In addition to this you can zoom the camera by simply twisting the joystick clockwise to zoom in and anti-clockwise to zoom out. The 3D joystick makes this the most accurate speed dome controller on the market today!

FEATURES

- 3-AXIS Joystick for P/T/Z and simple manual operation
- Support CCTV system control
- Support 255 device on the control bus, included cameras or receivers
- One master controller can connect 31 slave controllers
- Control every function of cameras and P/T/Z Receivers on the control bus
- Remote control by RS-485
- User-friendly LCD display protocol, communication parameter, controller ID and password via set-up menu
